General Information.

To find particulars of any building.—
Find it on the general plans or maps (lithograph), and note the district and Block.

Then refer to chart A, where will be found, at the top, the districts by number 1 to 38, (from the Battery to 96th St), and upon the left hand margin the Block numbers; where the Block line meets the District Columns, the numbers of the original books written by the canvasser will be found. These books are numbered consecutively upon their reception, on a small gummed label,

Changes of Districts.

all removals of Blocks from one district to another will be noted upon the general map by blue pegines, and lines, and the number of the block, (as it will be noted in the new district) will be increased by 100, so as not to have any duplicates, and any block bearing a number higher than 100 does so on account of such change.

Street Numbers

In all the streets from 14 to 59 the even numbers are on the South side.
